The Knowledge Tech Professionals Need to Succeed

COMPUTER SOCIETY DIGITAL LIBRARY

The One Authoritative
Resource for—

- Security
- Big Data
- Cloud Computing
- DevOps
- Artificial Intelligence
- Internet of Things
- 3D Printing
- Mobile
- Wearables
- Other Leading-Edge Technology Developments

THE LEADING PUBLICATIONS AND CONFERENCES

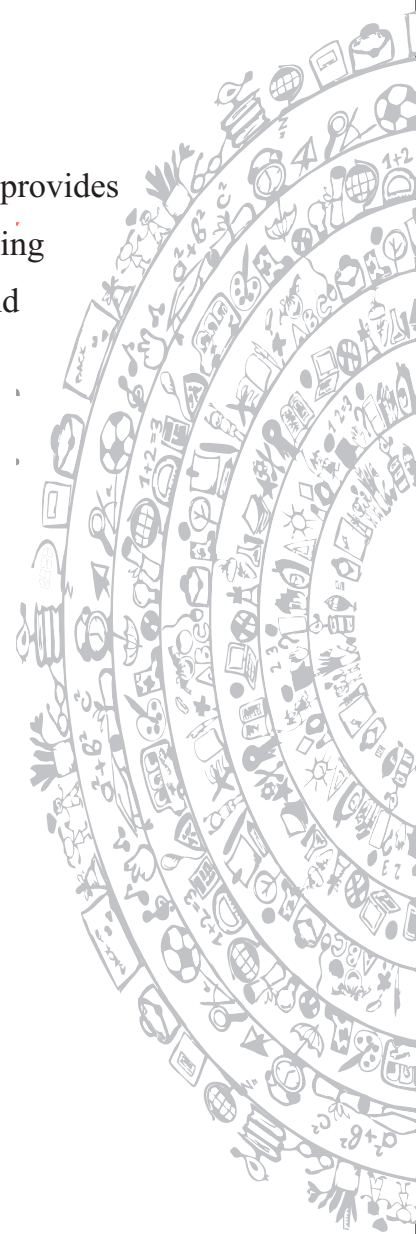

The **32** highly respected, peer-reviewed technology publications produced by Computer Society – **13** magazines and **19** transactions – and over **5,000** conferences sponsored by the Society attract the world's experts as launching pads for their new developments, advances, and thinking. As a result, more new ideas appear first in Computer magazine and other Computer Society publications, as well as in the proceedings of Computer Society conferences, than virtually anywhere else.

EASY ACCESS TO INFORMATION

For research, study, and problem solving - the Computer Society Digital Library provides fast, easy access to over 570,000 peer reviewed documents from the world's leading authorities, writing in the profession's most respected technology publications and proceedings.

- Mobile Ready – The CSDL is fully available in the palm of a user's hand on a tablet or phone, as well as on the desktop.
- A friendly interface makes interacting with the CSDL a pleasure.
- Institutional logos add your personalized touch to the CSDL experience.
- Faster search results prompt even more frequent usage.
- Browsing functionality is optimized and pages render fast, increasing user satisfaction.
- The CSDL is ADA compliant.
- Updated social media tools appeal to interactive users.

CONFERENCES THAT LEAD THE PROFESSION

Proceedings from over 5,000 of the world's most influential conferences are also included in the CSDL. These conferences provide the first line of leading-edge data on new research and development-knowledge constantly updated to keep users ahead. Here are a few of this year's conferences:

- International Conference on Big Data and Smart Computing
- 2015 IEEE International Symposium on Performance Analysis of Systems and Software
- 31st IEEE International Conference on Data Engineering
- 2015 IEEE Real-Time and Embedded Technology and Applications Symposium
- IEEE Conference on Software Engineering Education and Training
- International Symposium on Computer-Based Medical Systems
- And many more

STAY AT THE LEADING EDGE

To give you an idea of the quality of content in the CSDL, we've collected the most popular and the most searched titles viewed the last few months. Imagine giving your users access to this kind of knowledge

- From IEEE Software
 - “A Critical Success Factors Model for ERP Implementation”
- From Computing in Science & Engineering
 - “The 10 Algorithms”
- From IT Professional
 - “BYOD: Security and Privacy Considerations”
- From IEEE Internet Computing
 - “From Databases to Big Data”
- From IEEE Security & Privacy
 - “Biometric Recognition: Security and Privacy Concerns”
- From IEEE Transactions on Affective Computing
 - “Humans versus Computers: Impact of Emotion Expressions on People's Decision Making”
- From IEEE Transactions on Cloud Computing
 - “FastRAQ: A Fast Approach to Range-Aggregate Queries in Big Data Environments”
- From IEEE Transactions on Learning Technologies
 - “Measuring and Visualizing Students' Behavioral Engagement in Writing Activities”
- From IEEE Transactions on Mobile Computing
 - “Minimum Energy Routing and Jamming to Thwart Wireless Network Eavesdroppers”

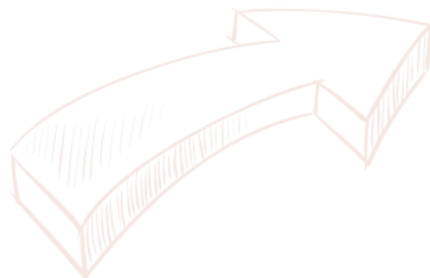

OPTIMIZED FOR LIBRARIES, LIBRARIANS AND THEIR USERS

Input from librarians and users have helped mold the features of the CSDL. In addition to mobile access, an easy-to-use interface, and fast search and rendering, the CSDL offers these features for librarians and their users.

- Up-to-the-minute RSS feed notifications of new content to keep users on the leading edge.
- Full text searchable content for optimum access.
- Multiple options for browsing and searching including Basic, Advanced, Boolean, More Like This, and cross searches of the ACM library, reduces search time and speeds application.
- OPAC and interactive reference linking, along with Open URL and XML gateway compatibility make for quick, easy access
- Clickable equations in all HTML documents for ease-of-use by students and researchers.
- Multimedia files in some content provide deeper understanding.
- Users access a personalized search page to manage saved searches, agents, and e-mail

TRANSACTIONS - UNMATCHED SOURCES OF KNOWLEDGE

IEEE Computer Society Transactions are among the world's most respected and influential journals. The information in these peer reviewed publications allows your users to dive deep into individual topics at a high technical level.
