A Global Reference Point for Water Professionals

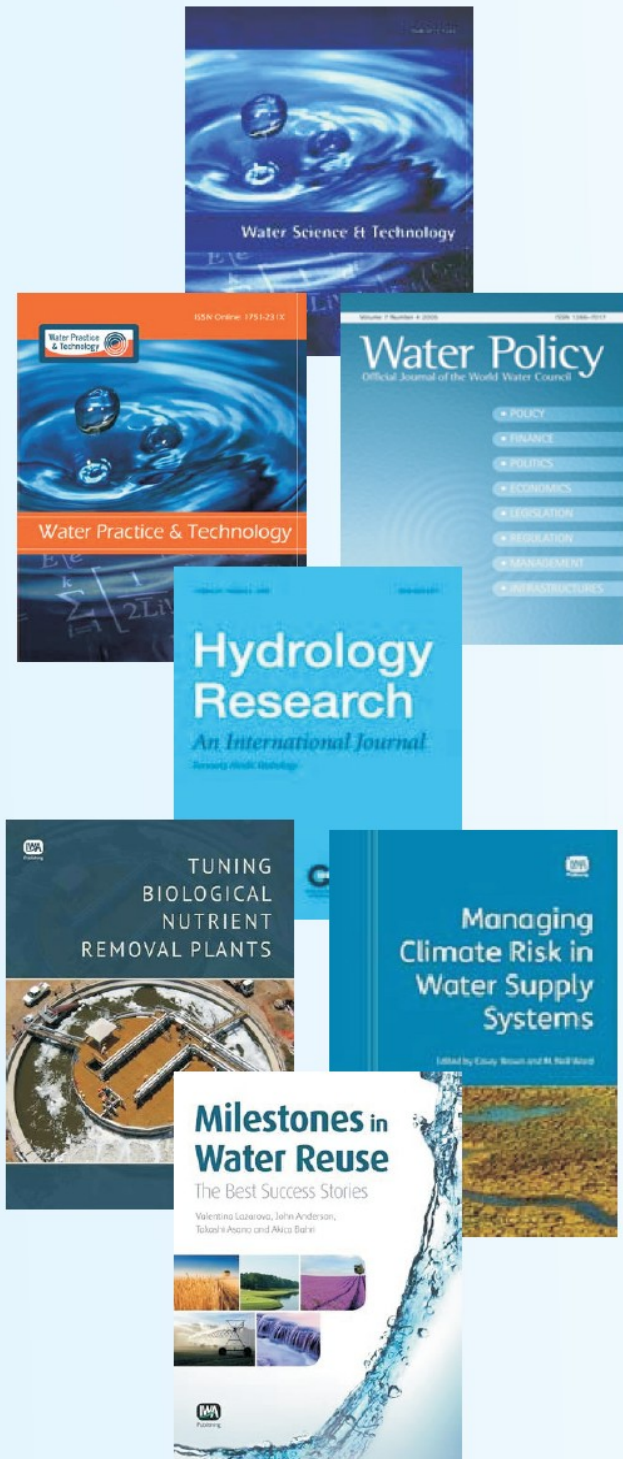

The International Water Association (IWA) is a global network for water professionals spanning the continuum between research and practice and covering all facets of the water cycle. Through its network of members and experts in research, practice, regulation, industry, consulting and manufacturing, IWA is in a better position than any other organization to help water professionals create innovative, pragmatic and sustainable solutions to challenging global needs.

IWA Publishing is the wholly owned subsidiary of the International Water Association (IWA). Through its publications, IWA Publishing extensively covers all aspects of water, waste-water and related environmental fields and aims at advancing standards and best practices in sustainable water management. It publishes a broad range of journals, books, research reports and manuals of best practices. Subject Areas broadly covered include:

- Hydrology
- Pollution
- Monitoring and Control
- Waste Management
- Sludge Management
- Utility Management
- Hydroinformatics
- Modelling and Statistics
- Water & Wastewater Reuse
- Environment
- Water Treatment
- Urban Drainage / Sewerage
- Water Policy / Legislation / Finance / Governance
- Water Supply and Distribution
- Water Science & Technology
- Water Management in Developing Countries
- Watershed / Catchments / River Basin
- Drinking Water Quality
- Wastewater Treatment
- Water Science & Technology
