

ExamSoft: Assessment Made Easier

ExamSoft provides institutions with an assessment tool that yields valuable performance data and gives educators insight into student learning that's necessary to make an impact on education.

If your program is looking for an efficient way to measure student performance and achieve academic success, ExamSoft is the ideal solution. Our exam tool streamlines the assessment process from beginning to end with an intuitive platform that helps educators create, administer, and analyze any type of exam, with powerful security to boot. Take a look at the benefits of using ExamSoft to improve the way you administer assessment:

Easy to Use: ExamSoft's user-friendly interface streamlines exam creation, management, and data analysis.

Comprehensive Evaluation: Get a broad view of student learning from all forms of assessment—both objective and subjective—by pairing with our Evalysis or Rubrics tools.

Secure Testing on Any Device: Deliver secure assessments anywhere on any device, including student-owned iPads and laptops, with Examplify.

Reliability without the Internet: ExamSoft delivers exams offline, eliminating the need for Wi-Fi and reducing reliability issues that may arise during exams.

Full Technical Support: Our software includes free training and support for students, faculty, and administrators.

The Facts:

Large Client Base

ExamSoft helps more than 1,300 clients around the world deliver secure, reliable assessment to students.

Trusted Software

ExamSoft is the trusted testing platform for more than 75% of state bar exams.

Refined Platform

More than 17 years, millions of exams, and a 99% client retention rate.

How Does ExamSoft work?

1. Educators create the exam in the online ExamSoft portal.
2. Students download the secure exam file via Exemplify Windows®, Mac®, or iPad®. Devices are locked down during the exam to prevent academic dishonesty.
3. Proctor announces exam password; students unlock exam and work offline.
4. Wi-Fi is reestablished, and ExamSoft uploads the answer files and deletes the exam files from students' devices.
5. ExamSoft auto-grades exams and reports on student and course performance.

- Receive in-depth performance reports immediately upon exam completion.
- View class performance at the longitudinal level.
- Customize end-of-exam reports with data filters.
- Easily address problematic questions and identify at-risk students in need of individual remediation.

The screenshot shows the ExamSoft platform. On the left, the 'Assessment Builder' is open, displaying options like 'FIND QUESTION(S)', 'IMPORT QUESTION(S)', and various question types: 'FILL IN THE BLANK', 'MULTIPLE CHOICE', 'TRUE/FALSE', and 'MATCHING'. In the center, a 'Question' card is shown with the text: 'For safe practice avoid contact with a patient who has...'. To the right, a 'Basic Class Report' for 'Upper Respiratory Anatomy Exam 3 Fall 2018' is displayed, showing student performance statistics: Mean Score (78%), Median Score (75%), and High Score (100%). Below these are summary points: 'TOTAL ASSESSMENT POINTS: 50 Points' and a list of three questions with their rationales.
